Science and Technology for Tomorrow's Air and Space Force

Success Story

DR. DANIEL W. REPPERGER NAMED IEEE CHAIR OF OHIO

The Institute for Electrical and Electronics Engineers, Inc. (IEEE) is a leading authority in technical areas such as computer engineering, biomedical technology, aerospace, and consumer electronics. Dr. Daniel Repperger, from the Human Effectiveness Directorate's Collaborative Interfaces Branch, has earned a key leadership role within IEEE at the state level. Dr. Repperger's new role permits the Air Force to remain on the cutting edge of modern technology while expanding relations with industry and services to practicing engineers.

Wright-Patterson AFB OH

Accomplishment

The IEEE Region 2 (Eastern United States) elected Dr. Repperger as the IEEE Chair of Ohio. Dr. Repperger reports and coordinates IEEE activities to Region 2, representing more than 6,500 members from the geographical areas of Cincinnati, Columbus, Akron, Cleveland, Youngstown, Lima, and Dayton.

Dr. Repperger's new position provides the directorate with new opportunities to remain on the cutting edge of modern technology occurring within the state, around the nation, and throughout the world. The knowledge gained will assist the directorate in fulfilling its mission to discover, integrate, and deliver affordable technologies for improved warfighting.

Background

IEEE is the largest technical professional organization with more than 380,000 individual members within 150 countries. Dr. Repperger, an IEEE Fellow, was elected as a Distinguished Member of the IEEE Control Systems Society and received the IEEE Third Millennium Medal.
